## For Immediate Release

**Date:** October 1, 2008  
**Contact:** Dawn L. Andres  
**Phone:** 573-449-2683  
**Fax:** 573-442-6213

Peckham & Wright Architects, Inc. welcomes Adrienne Stolwyk to their design team. Adrienne completed her Master of Architecture with a Minor in Spanish at Kansas State University in 2008.

Recently she was a team member of Greensburg Cubed, a studio organized to fund raise, design, and construct four green-building demonstration cubes for the Kansas town almost destroyed by a tornado in May of 2007. She also participated in the construction and design of a solar powered house at the Solar Decathlon in Washington, D.C. At the competition sponsored by the Department of Energy, she was one of three KSU students to receive a first place award for the project's solar hot water system.

Since joining the firm, Adrienne has taken on field measuring, architectural document production, computer modeling, and presentation development duties. Previous architectural internships, design and construction competition experience, and her abroad study in Orvieto, Italy have enhanced her ability to provide architectural services to clients.

Celebrating its 30<sup>th</sup> Anniversary, PWA is an award-winning architecture, planning and design firm located in downtown Columbia. The firm is currently finishing construction administration for the Eco Schoolhouse at Grant Elementary School and overseeing the construction of Columbia's new Fire Station No. 7. The firm's commissions include educational, corporate, healthcare, government, and athletic facilities.
