Kim Trabue Receives 2010 Star Award

The National Society for Design Administration presented Kim Trabue with a 2010 Star Award in recognition of her significant individual contributions to the membership of SDA Mid-Missouri and the entire Society through participation in and support of significant activities including Canstruction®

As an original member of the Mid Missouri Chapter of the Society for Design Administration Kim Trabue has offered invaluable knowledge and experience in the realm of professional design services to the members of the Chapter since it's founding in October of 1997. During that time she has served in many capacities including Membership Chair and Programs Chair, and is currently serving as Vice President.

For twelve years she has been the Chapter's Canstruction® Chair, coordinating the yearly event which includes signing up teams, seeking donations, developing public relations materials, serving as a liaison with the event location and food bank staff, organizing the awards ceremony, submitting the awards to SDA National, etc. She has also instituted the Chapter's Canstruction® website at www.midmoca.com. She has been both a champion and cheerleader for the event, encouraging local design firms and elementary students to participate and the community as a whole to support it.

Remarkably, her leadership has resulted in 215,425 pounds of food being donated as a part of Canstruction® to the local food bank. This dedication to Canstruction® has sparked the community's interest in the event and resulted in positive public relations for the local SDA chapter and the construction industry.

The Society for Design Administration advances management and administrative professionals in the Architecture/Engineering and Construction industry through education, networking and resources.
